FIELDWORK EXPERIENCE

Level II

Good Samaritan Hospital, Cincinnati, Ohio, Acute Care

January – March 2025

- Collaborated with other disciplines throughout the hospital to advocate for patient needs and implement effective interventions
- Administered assessments including MMT, ROM, MoCA, Short Blessed Test, and visual screenings on individuals with a wide variety of diagnoses during evaluations to create client-centered plans of care

Cincinnati Children's Hospital, Inpatient

March – June 2025

- Developed client centered interventions for patients throughout the hospital, including but not limited to the transitional care center, neonatal intensive care unit, inpatient rehabilitation, orthopedics, and medical surgical floors
- Coordinated schedules using Voalte to plan intervention times that met the needs of the interdisciplinary team
- Established rapport with parents of patients to promote an open environment and encourage carryover of therapeutic interventions

Level I

University of Cincinnati Medical Center - Acute Care
Total Immersive Diversity Experience, Xela, Guatemala – Outpatient Pediatric
